Again, this act by proceedings in rem forfeits property for the ingredients of treason, without a conviction of the surposed criminally or a personal hearing given him in any proceeding. That we may not touch property lying within our reach, because we cannot give personal notice to an owner who is absent endeavoring to destroy the government, is certainly not very satisfactory, still the owner may not be thus engaged, and I think that a reasonable time should be provided for such parties to appear and have a personal hearing. Similar provisions are not uncommon in connection with proceedings in row.
